

Telephone Record/Announce Adaptor Amplified

REC/A-ADPT-USB (3.5mm)

Description:

The Trillium Amplified Record/Announce Telephone Adaptor allows you to connect your telephone to your PC or Recording device to record telephone conversations and play pre-recorded messages or beeps to the telephone line. Powered by a USB Power Adaptor the adaptor is easily connected to any telephone with a detachable handset.

The Trillium Recording Adaptor is ideal for recording telephone conversations, for later reference, to confirm details of the conversation such as; the order

quantity, agreed price, name, telephone number, address or credit card details. It is also extremely useful for recording telephone interviews and conference calls for later transcription or minute taking.

It is a valuable training tool, allowing you to record sales and customer service calls for later analysis to enable you to develop appropriate training for Customer Contact staff.

Advantages:

- Easy customer installation.
- Simple to use.
- Allows playing of pre-recorded messages or beeps to the telephone line.
- Amplified to allow balanced recording of far end and near end voices.
- High quality recording.
- Suitable for all Digital, Analogue and VoIP Telephones.
- Selector switch for different telephone handset wiring.
- Volume control to balance the level of your voice with the other party's voice.
- Powered from External USB Power Adaptor (not supplied).
- Small and compact.
- Approvals: ACMA  AS/NZS 60950.
